*Election/Restrictions*

Claims 1, 14 are generic to a plurality of disclosed patentably distinct species of a surface to be revitalized:

- 1) plastic shutter (Claims 5, 19);
- 2) metal shutter (Claim 17);
- 3) vinyl siding (Claims 6, 12);
- 4) gutter (Claim 7);
- 5) painted surface (Claims 8, 13, 19-20).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species (i.e. one of 1-5 species) even though this requirement is traversed.

Upon the allowance of a generic claims, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Art Unit: 1762

A telephone call was made to Heather M. Barnes on June 6, 2007 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
